STREET LIGHTS ORDERED ON BY BOARD UNTIL FEBRUARY 1

ACTION FOLLOWS BOARD MEETING

Water Committee of the Council Brought up Subject and Wanted Lights on Permanently

Water Bond interest of \$1,437.50 Due November 1 on Issue of \$57,500 Bonds Held in Minneapolis

The water and light board on Tuesday evening decided to turn on the street lights, a temporary arrangement being perfected to hold good until February 1.

The water committee of the city council, Aldermen Anderson, Peterson and Strickler, had conferred with the board on street lights, discussing what arrangements could be made to turn on the street lights permanently.

There will probably be no arcs burning tonight as the moon is still on the job.

Further steps on the lighting question may be taken by the council and it is believed that a special meeting may be called before the regular session of Monday, November 5.

All members of the water and light board were present. The meeting lasted until 1 o'clock in the morning.

Round bills and payrolls were allowed.

Notice was received from Wells-Dickey Co., Minneapolis, that the 5 per cent semi-annual interest of \$1,437.50 was due November 1 on the issue of \$57,500 water bonds.

Few details of the Charlottesville wedding have been received in New York.

No International Boycott After War Winning its Way

(By United Press)

Washington, Oct. 31—President Wilson's dictum that there must be no international boycott after the war is winning its way among the European powers. Various missions visiting America have informed the United States tariff commission that plans to deny Germany a market for its goods after the contest is over have been abandoned by all the important powers. The policy of the tariff commission is no commercial as well as military conquest and that there shall be no strangulation of any nation's natural commercial developments and no discriminatory trade treaties among nations based on the present war lineup. If defensive legislation or treaties are necessary to keep them strictly defensive.

President Calls It "Can-t-n-m'nt."

Washington, Oct. 31—President Wilson pronounces it "can-t-n-m'nt," accent on the first syllable, and so does Secretary of War Baker; the other War department officials pronounce it can-ton-men, accent on the second syllable, because they got started that way and can't stop, although they know it is not the preferred pronunciation.

Dr. Theodore W. Hunt, English professor at Princeton, approves "can-ton-men" with the accent on the second syllable and the "o" as in the word bond.

British "Female" Tank in Parade

This British tank from the western front was a feature of the Liberty Loan parade in New York City. It was cheered all along the route. The tank was in command of Captain Richard Haigh, who has served in the British army since the beginning of the war.

"It's quite right to call my tank a female," said Captain Haigh. "You see the 'females' mount machine guns while the 'males' carry two six-pounders. This tank carries a crew of one commissioned officer, three drivers, four gunners and one non-commissioned officer. She has five machine guns."

The tank weighs twenty-six tons and is a mass of steel bolts and bullet-proof plates, 26 feet from end to end, 7 feet 4 inches high at the middle and sloping downward and upward to rounded ends on the caterpillar principle. It is painted an olive brown.

The armor plates are half an inch thick throughout. Its only sign of a battery consists of two swinging gun openings on each side in the center, which are only 15 inches in diameter.

The caterpillar treads around each side attracted the most notice.

CAVALRY IS IN ACTION

Flooded Condition of Tagliamento River Impedes Enemy Though Advance Penetrates In Venezia Province.

Rome, Oct. 31.—The war office announces that the Italian retreat still continues but that the Italian cavalry is in contact with the vanguards of the advancing enemy.

Berlin, Oct. 31.—Passchendaele village on the Flanders front was captured by the British according to the official announcement, but it adds, later they were driven out.

Drive Still Continues.

London, Oct. 31.—The drive of the German and Austro-Hungarian armies, begun a week ago against the Eastern and Northeastern fronts of the Austro-Italian theater, continues unabated, but with the Italian cavalry fighting rearguard actions to cover the retreat of the Italians to positions chosen for a stand. The Teutons also are being impeded by the flooded condition of the Tagliamento river.

Udine, former headquarters of the Italian army in Eastern Venezia, has been captured by the invaders, who also are pressing the Italians westward from the Isonzo front and invading Italian territory from the north through passes in Carnia Alps.

Teutons 20 Miles Inside Venezia.

The invasion of the province of Venezia from the east, with Udine the apex of the drive, already is about 20 miles, but as yet no definite information is at hand from which it is possible to judge the extent of the advance of the Teutons in the other district. If the movement from the north keeps pace with that from the northeast and the east, however, the predicament of General Cadorna's forces necessarily will be a serious one, and it is not beyond the realms of possibility that unless the eastern armies are able to make a stand in the plains of Friuli a further considerable number of the Italians will be captured.

No Official News.

Nothing has been vouchsafed in either the Italian, German or Australian official communications to indicate what the situation is in the Trentino sector, which lies to the west and northwest of the present zone of activity, but it is not improbable that if, as unofficial advices have stated, the Austro-Swiss frontier has been closed, reinforcements, both from Germany and Austria, are being hurried up for an offensive of great magnitude in this region.

ARMY SUPPLIES ARE BURNED

Munitions Destroyed In Fire Which Sweeps Baltimore Piers.

Baltimore, Oct. 31.—One of the largest fires in Baltimore since the great conflagration in February, 1904, that destroyed the business section of the city, was raging at midnight in big piers of the Baltimore & Ohio railroad at its extensive terminal at Locust Point on the south side of the harbor. Piers eight and nine are stored with vast quantities of munitions and supplies for the American forces in France and their allies.

Within 10 minutes after the flames were discovered the entire structures were ablaze. Fifteen of the crew of a British steamer lying at the pier leaped overboard and it is feared some of them were drowned. A dozen or more men employed on the pier are missing.

On one of the piers were cases of shells which exploded at intervals.

leading to rumors than the fire department was using dynamite to check the spread of the fire. It is reported that the fire was of incendiary origin.

BRITISH PLANES IN GERMANY

Attack Town Lying Twenty Miles Beyond Saarbrucken.

London, Oct. 31.—"Twelve British machines attacked Firmsens, 20 miles beyond Saarbrucken, Germany," says an official statement issued on aerial operations. "Bombs were seen to burst on factories and gas works with excellent results."

British machines bombed the railway station and lines around Saarbrucken."

Lord French, commander of the British home forces, announced that German airplanes which attempted to carry out a raid on the southwest counties of England, did no damage and caused no casualties. All the British machines which went up to engage the raiders landed safely.

Why I Believe in Nuxated Iron

A Strength Builder for the Nation
(By E. Sauer, M. D.)

Probably no remedy has ever met with such phenomenal success as has Nuxated Iron. It is conservatively estimated that over three million people annually are taking it in this country alone. It has been highly endorsed and used by Former United States Senators and Members of Congress; Physicians who have been connected with well-known hospitals have prescribed and recommended it; Monseigneur Nannini, a prominent Catholic Clergyman, recommends it to all members of the Catholic church. Former Health Commissioner Wm. R. Kerr, of Chicago, says it ought to be used in every hospital and prescribed by every physician. Sarah Bernhardt—"The Divine Sarah," the world's most noted actress, has ordered a large quantity sent to the French soldiers to help give them strength, power and endurance.

Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon Jefferson Park Hospital, Chicago, says Nuxated Iron has proven through his own tests of it to excel any preparation he has ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders.

Dr. N. H. Hornstine for ten years Physician in the Department of Public Health and Charities of Philadelphia says that tests made with Nuxated Iron on a number of stubborn cases where other tonics had failed absolutely convinced him of its remarkable and unusual power.

If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

NOTE—Nuxated Iron, which has been used by former Members of the United States Senate and House of Representatives, and other prominent people with such surprising results, and which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black nor upset the stomach; on the contrary it is a most potent remedy in nearly all forms of indigestion. The manufacturers have such great confidence in Nuxated Iron, that they offer to forfeit \$100 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 100 per cent or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days time. It is dispensed by H. P. Dunn and all good druggists.

Has done more towards nursing a sick or stagnant business than any known remedy. To get the desired results one should learn the real value of this great commodity and its relative merits when employed in the right way.

WOMAN'S REALM

RELIGIOUS DEPARTMENT

Of First Congregational Church Holds Meeting. Activities of Church Reviewed

At a meeting of the religious department of the First Congregational church held Tuesday evening the entire activities of the church were gone over thoroughly.

Definite plans have been laid for taking care of the benevolences, the visitations, the vesper service, also special provision has been made by the pastor to instruct those who recently professed Christ in the tabernacle meetings.

The mid-week service received considerable discussion and a splendid plan has been decided upon whereby both the men and the women will be called into service.

The following appointments were made by Rev. Sheridan:

Committee on place of meeting—E. P. Slipp, C. E. Cole.

Committee on books—W. A. M. Johnstone, C. Bruhn.

Committee on invitation—D. E. Whitney, O. W. Merwin for the men; Mrs. E. P. Slipp and Mrs. J. A. Wilson for the women.

Committee on music—Miss Whitley, Miss R. Robinson and Mrs. W. A. M. Johnstone.

The meeting this week will be held on Tuesday at the home of Mr. and Mrs. W. A. M. Johnstone. Every member of the church is urged to be present and to bring a friend.

DELIGHTFUL EVENT

Halloween Dance of Brainerd Commercial College at Knights of Columbus Hall

The Halloween dance given by the Brainerd Commercial College, first of a series of five functions in the winter season, was a most successful affair. It was held in the Knights of Columbus hall and the Bergé five-piece orchestra furnished the music. A fine program of dance numbers was played, including a twilight waltz.

The room decorations breathed the Halloween spirit, corn stalks waving in the corners and the color scheme being black and orange. Strung across the hall was a large banner with these words: "Brainerd Commercial College, the School That Does Things."

Many visitors from the range and other points were present.

Presbyterian Chorus

The Presbyterian chorus meets tonight at the church for rehearsal. Being the first meeting since the tabernacle campaign, a full attendance is desired. All who have at anytime been in the tabernacle chorus are urged to be present.

Evangelical Ladies' Aid

The Ladies' Aid of the Evangelical church of Northeast Brainerd will be entertained in the basement of the church Thursday afternoon. A cordial invitation is extended.

Bethany Prayer Meeting

The regular prayer meeting of the Swedish Bethany church will be held at the church on Thursday evening, at 8 o'clock. A special invitation is extended to those who were converted at the recent tabernacle meetings.

In no direction can American women so greatly assist as by enlisting in the service of the Food Administration and cheerfully accepting its direction and advice.

"4 MINUTE WOMEN"

Squad at Work in the Movies Lecturing on Conservation of Food and Saving Waste

At Superior, Wis., the women have been enlisted in the conservation of food and elimination of waste movement and the "4 Minute Men" idea on giving the Liberty bonds publicity in four-minute talks at the movies has been duplicated by the ladies who speak four minutes on food subjects.

As may be expected it is some difficulty in getting a woman to confine her remarks on any given subject to a scant four minutes, but it is working successfully in Superior and may be given a trial in Brainerd.

A nation wide campaign to complete the enrollment of our forces in conservation of our food supply, is a duty of necessity, humanity and honor. As a free people we have elected to discharge this duty, not under autocratic decree, but without other restraint than the guidance of individual conscience.

At the Best Tonight

Little Marguerite Clark, who has graced the garb of prince, pauper, orphan, Spanish girl, little Irish lass, Swiss maiden and others too numerous to mention, will be seen for the first time in "Silks and Satins." This beautiful photo romance produced by the Famous Players Film Co., will be shown at the Best theatre tonight. The Players have carefully selected for this petite star a cast, scenes and director, J. Searle Dawley, that make this production stand foremost among feature photoplays.

In this unusual romance Miss Clark is a modern girl who is to marry a certain young dandy against her wishes. Through the careless maneuvering of a table, a drawer is dislodged, which had heretofore been unseen, revealing a diary with an avenue of escape from her predicament inscribed in it by an ancient relative, of the eighteenth century, who had been in a like predicament. The plot is a combination of an old love story with one of modern origin.

The only regret in even attempting to describe the wonderful photoplay is that no description could possibly do such a photoplay justice. Mr. Walsh, director, has again shown himself to be the great master of the cinema, and he is ably assisted in the visualization by Milton Sills, Gladys Brockwell, Arthur Mackley, Miriam Cooper, James A. Marcus and many others.

'THE HONOR SYSTEM' TO BE SEEN HERE

William Fox's Great Photoplay Melodrama Booked to Show in This City

THE FILM OF 1,000 THRILLS

Gripping Picturization of Human Emotions is Verdict of Those Who Have Seen It

Next Monday and Tuesday at the Best theatre William Fox will present in this city a film drama which has already come to be known as the pride of his studio. In the great and mighty study of American life, "The Honor System," directed by R. A. Walsh, all of the artistic, scientific and psychological knowledge of film production which this pioneer producer has put ungrudgingly into this majestic story of the suffering human soul.

And there is a psychology of the photoplay. The late Prof. Hugo Munsterberg of Harvard, wrote and printed 230 thinking, moving pages to prove it. He says, "The truly upbuilding photoplay is not a dramatized sermon on morality and religion." And Mr. Fox adds: "You are right, professor, and in this film drama, 'The Honor System,' Mr. Walsh and all of us are not preaching a sermon. We are telling the greatest human story of life as it has really been lived, and we are offering our public a film, not a fad. But through it all there creeps out the truth, and it cannot be denied that the greatest human endeavor is the Divine attribute to rebuilding a human soul."

"The Honor System" deals with a career of a young American, educated honorable and refined, who goes to seek his fortune in the great southwest. There he encounters friends and enemies, the wolves of graft and cruelty, as well as the noble at heart. The big action is maintained through a series of extraordinary adventures which, however, are not adventures at all, but transcripts of fact of life as it is actually lived beyond the pale and far from long established communities. The love interest is said to be delightful, and the comedy touches are numerous. There is nothing in drama that can be compared with this new sort of film play. In its bigness and universality of quality it reminds one of such great biographical novels as "David Copperfield" and "Les Misérables."

The only regret in even attempting to describe the wonderful photoplay is that no description could possibly do such a photoplay justice. NOT ALL SUCKERS

The nonpartisan league, A. C. Townley president, evidently expected that the country newspapers would "advertise" the cause of the league by publishing their plate service which would only cost the country newspaper 75 cents for two columns weekly, and expecting such treatment all country publishers were set down as "chumps" by the solicitor. This is followed up by sop to the effect that the league is going to demand a "state paper mill" to help the country newspaper boys out. This sounds excellent, but the state paper mill has been agitated before, long before the league needed the aid of the country newspapers to advertise its objects and were requested to pay for the privilege of pulling the other fellows' chestnuts out of the fire. The Ironton News gives the "league" the best answer to its appeal for the country press to come to its aid "at so much per column":

To the National Nonpartisan League, A. C. Townley, President:

Dear Sir: We agree with you that the League "has just cause for complaint when it is made the object of attacks that are neither truthful nor fair." You are entitled to fair treatment, no matter how disloyal your organization's leaders may be. But you also should be fair. When you ask newspapers to print for you an advertisement for which you should pay about ten dollars are you fair to them if you ask such publication for nothing? Most of the publishers to whom you send your copy believe you to be the head of a disloyal, untruthful, pro-German, anti-American clique, which corresponds exactly with a similar organization that flourished during the civil war, and was known as "The Knights of the Golden Circle" and was recruited from the class called Copperheads.

If the Ironton News gives you any free advertising it will be with the understanding that unless you make a vast change in your tactics such an advertisement will not be in defense of you or your league.

You are entitled to a hearing, as every accused man is. You say the League is in good shape financially. If you are telling the truth it is for you to pay the expense of your defense. Send us a perfectly good draft for ten dollars and we will gladly publish the article you sent us.

Very truly yours,

The Publishers of the

Ironton News.

FACTS ABOUT FOOD

There is enough food in the United States and in the countries fighting as our Allies so that everyone may have plenty of it if carefully distributed and used. We have in the United States an abundance of corn, vegetables, fruits, poultry, fish, sea foods and coarse grains, such as barley, oats and rye. There is not enough wheat, meat, fat and sugar to go around, if we use as much as we are accustomed to use.

Every American who wants to do his full share (his bit) in the war may render a real service by using 25% less wheat, meat, fat and sugar than he has been accustomed to use, and to use in place of these, vegetables, fruits, fish, sea foods and coarse breads, as corn bread, rye bread, etc.

Our European Allies are using war breads made of rye, barley, buckwheat, potatoes and a small propor-

tion of wheat flour, and they absolutely must have wheat from here. The only way we can spare wheat this year is to economize in its use. They naturally use less than half as much meat as we do because they do not produce corn, and now France and England are on a ration of 21 pounds of sugar yearly per capita, while we have been using about 90 pounds of sugar yearly per capita.

The great majority of people in the country are as saving as they well can be, but in every home many of the things that are plentiful may be substituted for things that are scarce without increasing cost or reducing quantity of food used.

Bemidji is up against a fuel famine, and has just discovered that they are in what is classed as a "wood district" where coal is not sent until places where there is no fuel of any kind are taken care of. The coal famine that was talked of so much through newspapers is now being realized in some localities, owing to a shortage of cars. Bemidji and other places in northern Minnesota where there is timber are in better shape to withstand a shortage of coal than are the prairie districts. It is a hardship at best but actual suffering can be averted if it comes to that.

Food, men and money are three things that must be furnished to win the war. Minnesota can furnish her share of men and money, that has been demonstrated. Being a great food producing state with a surplus above our own needs she should contribute most generously of her abundant stores, and if every home will practice saving of wheat, meat, fat and sugar our allies will be assured of ample rations. Sign the food pledge.

OTHER PEOPLES OPINIONS

"Impersonal"—"Pantheism"

I wish to thank Rev. Welliver for his respect in giving some attention to my definition of God, and for deem it worthy of a criticism. I would have been more delighted, however, to see that some one would be willing to help me out in my attempt to form a truer conception of God. Mr. Welliver failed to throw any light on that subject. He simply informs us that God is a person, that my conception of God is called Pantheism, and that Pantheism leads man to live immoral.

As I can not grasp the logic of his reasoning, I must leave that to him and give some reasons for using the word Impersonal. This word seems to be the stumbling block in his way. He tells so hard that he did not come up in time to study my definition. In my definition, I used the term individual intelligence, the soul of man, as illustrations of the attributes of God. To enlarge upon these attribute, to extend them to the Universal Soul, in order to get a more complete conception, I used the word "impersonal." If that word does not help to extend the view, I am willing at any time to substitute another, one that will serve the purpose. Suppose we use the words Limitless Personality, would that help it any?

Welliver's illustration: "The rebel Nimrod refused to retain God in his knowledge." I am happy to find that I am not in his company. Have tried for 35 years to attain to a greater knowledge of God. Nimrod evidently did not care to know, and the natural consequence was a life in sin and unrighteousness.

The break between Argentina and Germany, which Von Luxburg apparently was expecting in July, has not yet come. Latest advices from Buenos Aires do not indicate any intention by the Argentine government to join Brazil and other South American nations on the side of the Allies. Von Luxburg, who was kept in a detention camp for a time after his exposure, is expected to sail for home at once, the Allies having agreed to grant him safe conduct for the voyage.

If my conception, as far as I have been able to express the same, is called Pantheism, I will gladly accept the name, and pass it on to all others who seem to agree with me on the subject. I am in a good and great company namely; St. Paul, St. John, Jesus, David, most of the Hebrew prophets and all great poets in all ages. Yes, even the first chapter of Romans, which Welliver refers to, conveys the thought that God manifests himself in his creation. Read the 20th verse.

As Mr. Welliver fell for the word "impersonal" so he thinks that I will fall for names, Pantheism, Christian Science, Hinduism. There was a time when I also, used to fall before words and names, but now, no, we can scare me away from facts and truths by calling names.

When we understand the real nature of sin and its effects upon human souls, we will also understand the cure, the healing process which we call Salvation. Then, and only then will the so-called "Orthodox Christian doctrines" formed in Nice, 325 A. D., be revised, and the Christian world be liberated to make new and better declarations to meet the demands of an increased human intelligence, which cannot possibly take things for granted, and blindly believe in speculations of the men at that great meeting.

It may be news to some of the readers of this, that all doctrines were decided by vote. Even physical arguments were used to such an extent that one poor member was beaten to death.

U. S. SPRINGS TO ASSIST ITALIANS

Advances \$230,000,000 Loan and Rushes Coal, Food and Munitions To Ally.

SUPPLIES ARE ON WAY

Twenty-Five Shiploads Diverted From Other Destinations To Aid Hard Pressed Ally—First Country To Act.

Washington, Oct. 31.—The United States is the first among the nations fighting for the overthrow of the Kaiser to spring to the defense of Italy.

Two steps have been taken in rapid succession to aid the Italians in the present critical situation. They are: A loan of \$230,000,000 to the Italian government.

Diversion of 25 shiploads of military supplies, coal and food previously intended for other destinations.

Secretary of the Treasury McAdoo announces the advancement of the additional credit of \$230,000,000. This brings the total credit of Italy up to \$438,000,000.

Loans to Allies Exceed Three Billion.

The new Italian credit carried the total foreign credit advanced by the United States to the Allies over the three billion mark, the total loans to all Allies now being \$3,091,400,000.

The money advanced will be used by Italy in purchasing supplies in this country, to be rushed as rapidly as possible to re-enforce the Italians in their stand against the German-Austrian drive.

With the District of Columbia dry, a question of social niceties arises. Will state dinners be dry, as in Bryan's grape juice days? Will President Wilson give up the Scotch highballs he enjoys after a game of golf?

Neither the president nor Secretary of State Lansing are teetotalers.

The capital is watching to see if they regard the action of congress as establishing or pronouncing a matter of public sentiment and usage.

Washington has had its share of famous bars. There was Shoomakers which shared with Hancock's, the bacchanalian attractions of one of the masters of American drinking, Daniel Webster. The Gin Rickey was invented in Shoomaker's during the early nineties by Col. Joe Rickey of St. Louis.

Washington's most historic drinking bout was when Andrew Jackson was elected president.

Jackson when he got to Washington, remembered the men who put him there and invited "all the boys" to the White House for his inauguration. They came, in galluses and high, hobbled shoes.

On the lawn were vast tubs of champagne. They liked it almost as well as their own Bourbon. A Boston historian of the day called it a disgraceful mob.

While the administration shares regret and concern over initial successes of the Teutonic drive, high officials are said to utterly reject the opinion, advanced in some quarters, that events in Italy can become decisive of the war or even an important turning point.

It is felt that setbacks in Italy will act as a spur rather than a discouragement, both upon Italy and upon the other Allies. There is no apprehension that Italy will weaken in the common cause against Germany.

While the administration shares regret and concern over initial successes of the Teutonic drive, high officials are said to utterly reject the opinion, advanced in some quarters, that events in Italy can become decisive of the war or even an important turning point.

During Cleveland's second administration, some of his most enthusiastic admirers got so intoxicated in a bar in the capital that prohibition sentiment got its first start in Washington. A movement was started to drive "King Rum" from the capital building. For years the movement made little or no progress. As pressure grew more determined the House took to adopting resolutions which by agreement would be held up by the Senate.

But about a decade ago the Senate got beyond control of the leaders and out from the capitol went liquor.

LUXBURG PLAN IS EXPOSED

Messages Show Intention To Awe Latin-Americans.

Washington, Oct. 31.—Two more of the notorious Count von Luxburg's messages to the German foreign office from Buenos Aires have been made public by Secretary Lansing. They provide official confirmation of Germany's plan to control Southern Brazil, shed additional light upon Teutonic intrigue in South America generally and reveal that Luxburg appealed vainly for a squadron of submarines with which to awe some Latin-Americans and to flatter others with salutes.

The break between Argentina and Germany, which Von Luxburg apparently was expecting in July, has not yet come.

Latest advices from Buenos Aires do not indicate any intention by the Argentine government to join Brazil and other South American nations on the side of the Allies.

Von Luxburg, who was kept in a detention camp for a time after his exposure, is expected to sail for home at once, the Allies having agreed to grant him safe conduct for the voyage.

SWITCHMEN TO ASK INCREASE

Want Wages Raised Fifty Per Cent, Is Statement.

With the American Army in France, Oct. 31.—The Americans in the trenches and gun pits of France have seen the sun for the first time since taking their places in the line. The weather was clear and cold and a frost covered the hills during the night.

The favorable conditions gave the gunners a better opportunity to do shooting, the observers being able to spot the targets and shots.

The condition of the first wounded

Americans arriving at the base hospital is excellent. The infantry and artillerists took advantage of the sunshine to dry their soaking clothing.

Notwithstanding the bad weather conditions of the last few days there is no report of a single case of sickness resulting from this cause. The Adamson law enacted in 1916 to avert threatened strike, reduced the daily hours of labor of the switchmen from 10 to 8 hours, but did not increase their earnings.

RECORD FREEZING OF MISSISSIPPI

This is the Earliest Close Up From Shore to Shore With Ice of Which There is Record

EARLIEST FREEZE WAS NOV. 6

Little Falls Transcript has Kept Record for the Past 29 Years Which is Interesting

The Little Falls Transcript has kept an interesting record covering dates of the opening and closing of the Mississippi river for the last 29 years. The data will be interesting and is eligible for a place in your scrap book as the record at Brainerd is practically the same. The account follows:

The Mississippi river froze over last night with a coat of ice said to be two inches thick in places and extending from shore to shore. This is the first time the river has frozen over in October since the record was kept. The first available record is in 1890. The earliest freezing before last night was on Nov. 6, 1894.

The temperature that caused the freeze was 15 above zero, the lowest point reached since last winter, recorded by the government thermometer this morning. This is 17 degrees below freezing.

Following is a record of the opening and closing of the river for 29 years:

Opened	Closed
1889—April 16	Not known
1890—April 14	Dec. 2
1891—April 13	Nov. 14

BRAINERD'S ODDEST STORIES OF TODAY

John H. Krekelberg has a big job on his hands. He is to lay out the indoor tennis courts at the Knights of Columbus hall.

A gold ring was lost in a household on the south side and Policeman Louis Ahlgren did a detective stunt, recovered the ring and returned it to the owner who then refused to swear out a complaint.

Notice to Baptists

The Thursday night prayer meeting will be held at the Y. M. C. A. building, because of repair work at the church. All the members and converts from the tabernacle campaign are urged to be present.

LARSON WENT OVER THE TOP

Northwest Paper Company Worker Evolves New Method of Going Over at the Dam

BROKE HIS ARM ON THE WAY

Swam With One Hand From the Eddy at Base of Dam to Shore, Fought With Undertow

There are different ways of going over the top and a new one was solved by Lars Larson at the dam of the Northwest Paper Co. in North-east Brainerd.

Lars was making some adjustments at the shut-off gates of the sluice way, slipped on an icy place and shot down the sluice way and splashed into the river below. He broke his arm on the way down, dipped in the icy waters, came up, fought the undertow and swam with one hand fifteen feet to shore.

The accident happened late Tuesday afternoon.

CROW WING COUNTY BOASTS OF MARKET

For Farmers Which Has Succeeded Even Beyond the Expectations of Those who Advocated it

IS IN FLOURISHING CONDITION

Manager Tries to Buy Apples that Were Going to Hogs. Gets a \$4 Per Barrel Quotation

(From Minnesota in the War, Official Bulletin of Minnesota Public Safety Commission.)

Crow Wing county boasts of a local market for farmers in Brainerd which has succeeded beyond the expectations of Mr. Hurley, who is in charge. This is how it started. Mr. L. P. Hall, the president of the country Federation of Farmers' Clubs, was in town one day when the country women's committee was giving a canning demonstration. He said the farmers would undoubtedly bring in their goods if the people would only buy. Mrs. W. H. Gemmill, the district chairman, made a speech on the subject, the women immediately took hold of it and a market was started which immediately became popular.

She says, "We even went so far as to get certain church guilds to promise to buy up perishable vegetables at the end of certain days (the market made a special price). Our church made a great success of it and held a food sale of these canned goods. Mr. Hurley wrote to southern Minnesota where he heard that they were feeding apples to the pigs and said that he would gladly take them off their hands. However, they quoted in return a price of \$4.00 a barrel. He has shipped away large quantities of produce where there has been a demand and this has added to the success of the market."

NOTICE

On and after Nov. 1, all barber shops will close at 7 o'clock P. M. on all nights except Saturday night, and on Saturday at 10 o'clock P. M.

Y. M. C. A. TO RAISE \$35,000,000

During Week of November 11-19, to be Expended in Behalf of Soldier Boys Here and Abroad

MORAL PROTECTION FURNISHED

Y. M. C. A. Centers at Training Camps, Cantons and Near the Fighting Fronts

H. F. Michael, Dr. Joseph Nicholson and Dr. E. E. Long of this city attended the war work council banquet and discussion at Wadena, from which center is soon to be launched the Y. M. C. A. campaign to aid the soldier boys here and abroad.

The International Y. M. C. A. plans to raise \$35,000,000 in the United States during the week of November 11-19, to be expended in behalf of our soldier boys in the training camps and cantons in this country and abroad, with a generous proportion to be devoted to work in the French, Russian and Italian armies. Reports from the battle fronts of Europe, both official and through personal investigation have disclosed a condition of immortality which is appalling. Want of moral protection, of education on physical subjects and legitimate amusements have led the soldiers into a life that is more deadly to the success of Allied arms than he will recognize the face of an acquaintance.

And when you make your contribution to the Brainerd Daily Dispatch Tobacco Fund which we are conducting you can be very sure that it will carry directly to our boys in France reminders of all that's dear to them and that one of the little kits that cost you only a quarter of a dollar may furnish inspirations to a group of men whose arms will be strengthened and whose courage will be maintained in any hour when the tide of battle depends on just such things.

Give a quarter—a dollar or more! See to it that around every camp fire and in every trench there floats the mystic spell that will visualize to every man the definite tangible, human, thing for the protection of which he has gone to France to fight.

Individuals impelled by such thoughts make armies that fight with all the combined powers of the unit and the mass; before such forces the machine of militarism can have no endurance, and the cigarettes that you send will help to save the world for democracy.

Contributions continue to flow in at the Dispatch office. A. A. Alexander of 215 Kingwood street, said he was glad to help along the fund. Charles Krich came from the country and contributed his dollar. Mrs. George W. Moody gave fifty cents. Sam Parker said it was a good idea and gave a dollar. G. W. Smith, who sells "Cheer Up" flour and other milling products gave another dollar, saying "Cheer Up" flour ought to be represented among the list of donors.

Here is what you get for a quarter:

- 2 Packages of Lucky Strike* Cigarettes, retail price .30
- 3 Packages of Bull Durham Cigarettes, retail price .15
- 3 Books Bull Durham Cigarette papers
- 1 Tin of Tuxedo Tobacco, retail price .10
- 4 Books of Tuxedo Cigarette papers

THINK OF IT

40,000 Persons Publicly Recommend Our Remedy, Some are Brainard People

Over one hundred thousand have recommended Dean's Kidney Pills. For backache, kidney, urinary ills. Forty thousand signed testimonial are appearing now in public print. Some of them are Brainerd people. Some are published in Brainerd. No other remedy shows such proof. Follow this Brainerd man's example.

Dan M. Clark, hardware dealer Iron Exchange Bldg., Brainerd, says: "I have often recommended Dean's Kidney Pills for I have known of their merit for some time. I procured Dean's Kidney Pills at H. P. Dunn's Drug Store and have always found that they act just as represented."

Price 60¢ at all dealers. Don't simply ask for a kidney remedy—get Dean's Kidney Pills—the same that Mr. Clark had. Foster-Milburn Co., Props., Buffalo, N. Y.

At the Best Tomorrow

Lovemaking in motion pictures is a new and difficult art, according to Mahlon Hamilton, leading man for Mme. Petrova, in her latest Metro Wonderplay, "Bridges Burned," which will be seen at the Best theatre tomorrow.

In making this statement Mr. Hamilton talks as an expert, both on the speaking stage and screen. On the speaking stage he was the original Paul, the hero of Elinor Glyn's "Three Weeks."

"There is the finest kind of art in lovemaking for motion pictures," says Mr. Hamilton. "On the speaking stage the hero meets the heroine and says, in a voice filled with emotion: 'I love you—Ah, I love you! Will you be mine?' And then the heroine either presents him with the 'mittin' or accepts him. But in either case she is able to sob or smile and tell why."

BENEFIT DANCE FOR SOLDIERS

The benefit dance Friday evening, November 2, at Gardner auditorium, will be for the benefit of the soldiers' company fund and will thus aid them in buying many things which the rations do not cover.

The benefits at Crosby and Woodrow for the boys were well attended and it is expected that Brainerd will also do the right thing.

The B. of R. E. expect many from the range, Staples and up the M. & I.

TOBACCO FUND

Contributions Continue to Flow in, Interest in the Dispatch Fund is Now Waning

This country is the home of good tobacco. Our cigars, cigarettes and tobacco are the best in the world and they are distinctly unlike any others in the world; a man from the United States will recognize the odor of home-made "smokes" quicker than he will recognize the face of an acquaintance.

And when you make your contribution to the Brainerd Daily Dispatch Tobacco Fund which we are conducting you can be very sure that it will carry directly to our boys in France reminders of all that's dear to them and that one of the little kits that cost you only a quarter of a dollar may furnish inspirations to a group of men whose arms will be strengthened and whose courage will be maintained in any hour when the tide of battle depends on just such things.

N. D. STATE OFFICIAL TAKEN

Secretary of State Accused Of Embezzlement.

BISMARCK, Oct. 31.—Secretary of State Thomas Hall and E. M. Walla, automobile register clerk in the secretary of state's office, have been arrested on an embezzlement charge sworn to by Attorney General William Langer. The arrests, it is said, were the result of an examination of the books of the automobile department of the secretary's office made by the state bank examiner and which, it is alleged, showed a shortage of \$3,400.

McLeod Fails To Raise Bond Quota.

Lester Prairie, Minn., Oct. 31.—McLeod county, storm center of pro-German sentiment, failed to make good its protestations of loyalty at the recent Lester Prairie meeting by its subscriptions to the second Liberty Loan, according to the bond subscriptions turned in by McLeod county banks. They total only \$248,300, less than half the county allotment of \$600,000, despite a strenuous campaign made in the county by three outside workers. Lester Prairie and vicinity allotted \$42,000, raised \$3,600.

Exchange Blow For Blow With Enemy "Somewhere In France."

TROOPS IN SEA OF MUD

Infantry In Knee Deep Water In Some Places—Correspondents Visit Front First Time—Lieutenant Tells of First Shot.

With the American Army, "Somewhere in France," Oct. 31.—The American army is exchanging blow for blow with the Boches, learning war by contact, but under terrible weather conditions.

France today is a vast stretch of icy rivulets and bogs. Rain and snow are beating down day after day. Through it all, the Sammies are manning their guns, perfecting their marksmanship by shelling enemy emplacements, while the infantry in some places actually stands knee deep in almost freezing water.

Stand Watches On Front Lines. The American infantry stand their watches on the front lines and take their regular turns at patrols into the bleak, deadly waste that is No Man's Land. It is a desolate section where the blizzards swirl of snowflakes or sheets of rain make it often impossible to see more than a few yards.

Nearby American engineers, constantly alert, clustered around a feeble fire in a half-demolished farmhouse, await hourly summonses from across an almost impassable terrain, to repair trenches. Returning wet through and stupefied with exhaustion, they throw themselves on the floor, wrapped in blankets, and snatch a wink—most without an opportunity to change their clothing.

Tells of First Shot.

Accredited American correspondents have had their first opportunity to visit the Sammies at the front—their gun pits, dugouts and trenches.

We staggered single file across a valley to see the gun that fired the first shot of the war. A young lieutenant from Indiana told with boyish enthusiasm how that first shot came to be fired. He interspersed his running narrative with cryptic commands to his gunners, working underground.

Men Drag Gun Up.

The French officers told us it was impossible to procure horses to haul that particular gun here until daybreak," the lieutenant explained. "He said if we wanted to drag it up—by manpower—we might beat the others and thus have the opportunity of firing the first shot.

"Our men knew it would be a tough job, but they were anxious to shoot that first shell. So they worked through all that night in the rain and mud. And they got the gun in position just before daybreak."

NO FOOD HOARDING ALLOWED

Sixty Day Limit On Supplies Is Planned.

Washington, Oct. 31.—Regulations designed to check hoarding of food are to be issued at once by the food administration in connection with its system of licensing dealers.

No licensee, the food administration announces, will be permitted to keep on hand or have in possession or under "control by contract or other arrangement, at any time any food commodities in a quantity in excess of the reasonable requirements of his business for use or sale by him during the period of 60 days."

Moreover, no licensee will be permitted to sell or deliver to any persons, any food commodities if he himself knows or has reason to believe that such a sale or delivery will give to such person a supply in excess of his reasonable requirements for use or sale by him during the period of 60 days next succeeding such sale or delivery. With respect to some commodities, only a 30 days' supply may be held.

Has Notable Omission But Still Retains Enough Punch To Frighten Germans.

Washington, Oct. 31.—The commission on camp activities has just issued for distribution to men of the army and navy a denatured book of songs for soldiers and sailors.

The volume contains about 75 songs, enough to last Pershing's men until they cross the Rhine, but it is notable as much for its omissions as for its inclusions.

Sherman's Song Left Out.

"The Star Spangled Banner," "America," "The Battle Hymn of the Republic," "The Red, White and Blue," and "The Battle Cry of Freedom" are given the place of honor. "Dixie," "Old Black Joe" and "Carry Me Back to Old Virginia" are there, but "Marching Through Georgia" and "Yankee Doodle" are omitted, as are the artillery song, which contains a few dams, and the "Caraboo," a song which has three dams to a line.

As a compliment to the French "La Marsiglaise" and "Joan of Arc" are included and there is the "Song of Free Russia." But the British soldiers' marching song, "Tipperary" is omitted.

Over There Finds Place.

George Cohan's "Over There" finds a place in the volume right next to "The End of a Perfect Day," "Mother Macree" and "Silver Threads Among the Gold." Then there is a double barreled offering that ought to drive the Germans from their trenches. It is a combination of "Yaaka Hula" and "Aloha Oe," which, it is
